Funds for this project were provided through the Centers for Disease Control and Prevention Breast and Cervical Cancer Early Detection Program, Well Integrated Screening and Evaluation for Women Across the Nation, and Colorectal Cancer Screening Demonstration Program Cooperative Agreements with the Nebraska Department of Health and Human Services System. #U58/DP000811, #U58/DP001421, #U55/CCU725047

OP10-0038-8/09

**910 Nebraska men and women will be
diagnosed with colon cancer this year.
If you're 50 years of age or older...
Get Screened for Colon Cancer!
Don't Wait Another Day!**

Did you know?

You have the power to stop colon cancer before it starts.

Colon cancer starts with a growth that is not cancer yet. Testing can help your doctor tell if there is a problem, and some tests can find a growth before it becomes cancer. Most people who have these growths removed, never get cancer.

If colon cancer is found early, you have a good chance of beating it with treatment. And testing can find it early so that you can be around to enjoy the great moments in life and those around you that you care about the most!

The **Nebraska Colon Cancer Screening Program** helps men and women 50 years of age and older make decisions about colon cancer screening.

Services may include:

- fecal occult blood test (FOBT) kit for at home testing
- colonoscopy
- information about healthy living

How Do You Qualify?

- Women 50 years of age and older
- Men 50 years of age and older
- Have a low to medium income

Number of people in household	Household Income
1.....	\$0 - \$24,368
2.....	\$0 - \$32,783
3.....	\$0 - \$41,198
4.....	\$0 - \$49,613
5.....	\$0 - \$58,028
6 or more.....	call 1-800-532-2227
*Effective July 1, 2009-June 30, 2010	

"If you remember watching me play for the Huskers, ask your doctor about getting screened for colon cancer."

JERRY TAGGE
All American Quarterback
1970-71
